

# SKALA Industry

## Distinction and Characteristics

SKALA Industry is your photovoltaic module for large-scale facade installations in the industrial or commercial sector. Generate approx. 150 W per square meter of facade surface with modules that meet the highest quality standards (in accordance with IEC 61730, IEC 61215 and abZ Z-70.1-224). The uniform black facade cladding continues to impress with easy installation thanks to the proven joint mounting. If you are interested, have any questions or suggestions, please feel free to contact us at [sales@avancis.de](mailto:sales@avancis.de).

	SKALA Industry B901	SKALA Black B001	PowerMax
Application	Facade	Facade	Discontinued, formerly roof and field application
Color design	Exclusively black, wide color limits	Homogen color experience, very narrow color limits	Exclusively black, very wide color limits
Efficiency	Up to 150W	Up to 145W	Up to 160W
Size	Uniform standard size	Uniform standard size as well as customized sizes	Uniform standard size
Mounting	Joint mounting „In-Joint“	Hook-in mounting „Hook-In“	Joint mounting „In-Joint“
Cover glass	Float glass	Rolled glass	Rolled glass
Reflectivity in gloss units [GU]	60 GU	50 GU	30 GU
Certification	CE declaration as well as internal quality standards according to IEC 61730:2016 IEC 61215:2016 IEC 61701 Z-70.1-224	Safety qualification IEC 61730:2016 Design qualification and type approval IEC 61215:2016 Salt mist corrosion IEC 61701 German general building approval Z-70.1-224	Safety qualification IEC 61730:2016 Design qualification and type approval IEC 61215:2016 Salt mist corrosion IEC 61701 German general building approval Z-70.1-224
Fire rating	according to B2 (DIN 4102-1:1998-05)	B2 or B1 (DIN 4102-1:1998-05) B - s2, d0 (DIN EN 13501-1:2019-05) Class C (ANSI/UL 790:2004)	Class C (ANSI/UL 790:2004)
Minimum purchase quantity	1000 modules	40 modules	300 modules
